

Seattle's Urban Blueprint for Habitat Protection and Restoration

Review Draft

June 2001

City of Seattle

Prepared by

**City of Seattle's
Salmon Team**

710 Second Avenue, Suite 1000
Seattle, WA 98104
(206) 386-4389

ACKNOWLEDGMENTS

The City of Seattle wishes to express our thanks and to acknowledge our extensive use of information from the *Draft Reconnaissance Assessment – Habitat Factors that Contribute to the Decline of Salmonids (2001)* by the WRIA 8 Greater Lake Washington Technical Committee (2001) and our extensive use of information from the Review Draft of the *State of the Nearshore Ecosystem: Eastern Shore of Central Puget Sound, Including Vashon and Maury Islands (WRIAs 8 and 9)* prepared for the WRIA 8 and 9 Nearshore Technical Committee (2001). Seattle respects the superior quality of the scientific information that the two Committees and their individual scientists have published in these pioneering documents. We wish to incorporate this knowledge into the City's future efforts and to build upon it.

Table of Contents

READER’S GUIDE TO SEATTLE’S URBAN BLUEPRINT FOR HABITAT PROTECTION AND RESTORATION 1

SEATTLE’S SALMON RECOVERY POLICY FRAMEWORK 5

SEATTLE’S SCIENTIFIC METHODOLOGY 7

 Overview 7

 General Approach 9

 Developing a Scientific Framework 10

 Life History Stages 12

 Key Habitat Types and Characteristics 12

 The Larger Context 14

 Actions Based on Science 14

SEATTLE’S AQUATIC ENVIRONMENTS 17

 Lake Washington 17

 Overview 17

 Historical Modifications 17

 Chinook Utilization of Lake Washington 19

 Habitat Requirements 20

 Landscape and Habitat Forming Processes and Trophic Interactions 23

 Preliminary Focus Areas 25

 Habitat Improvement Projects in Lake Washington 26

 Addressing Uncertainties 29

 Literature Cited 29

 Lake Union/Lake Washington Ship Canal System 33

 Overview 33

 Historical Modifications 33

 Chinook Utilization of the Lake Union/Lake Washington Ship Canal System 35

 Habitat Requirements 35

 Landscape and Habitat Forming Processes and Trophic Interactions 37

 Preliminary Focus Areas 38

Habitat Improvement Projects in the Lake Union/Lake Washington Ship Canal System	38
Addressing Uncertainties	40
Literature Cited	40
Hiram M. Chittenden Locks/Salmon Bay/Elliott Bay	43
Overview	43
Historical Modifications	43
Chinook Utilization of the Hiram M. Chittenden Locks	44
Habitat Requirements	45
Preliminary Focus Areas	50
Fish Passage Improvement Projects at the Locks	51
Addressing Uncertainties	51
Literature Cited	52
Duwamish Estuary	55
Overview	55
Historical Modifications	56
Chinook Utilization of the Duwamish Estuary	59
Habitat Requirements	60
Landscape and Habitat Forming Processes	62
Preliminary Focus Areas	64
Habitat Improvement Projects in the Duwamish Estuary	65
Addressing Uncertainties	72
Literature Cited	72
Marine Nearshore Environment	75
Overview	75
Historical Modifications	75
Chinook Utilization of Marine Nearshore Environment	77
Habitat Requirements	78
Landscape and Habitat Forming Processes	79
Preliminary Focus Areas	82
Habitat Improvement Projects in the Nearshore	83
Addressing Uncertainties	85
Literature Cited	85
